Assigned CE Survey

Only Assign Custom Surveys ▼

☑ **Enabled**

☐ **Allow providers PE access**

   If checked, providers can view PE results and receive monthtly emailed reports.

☑ **Enable Five Star Widget** ⬅

SCROLL DOWN AND SELECT THE "PROVIDERS" TAB ON THE SAME PAGE

This will show you the list of providers in your practice. You will then follow the instructions displayed in step 5 for each provider to display their respective Five-Star widget on your website.

SELECT A PROVIDER, SCROLL DOWN TO THE FIVE-STAR WIDGET SECTION, FOLLOW THE INSTRUCTIONS, SAVE YOUR CHANGES, AND REPEAT

Five Star Widget

1. For the Five Star Widgets to appear on your web page, you will first need to add the below <script> tag within the <head> or <body> of your web page. This script tag only needs to be added once per page, even if there are multipe-providers on a page.

```
<script type='text/javascript' src='http://5star.physicians-empowerment.com
/five_star_widget.js' async></script>
```

2. Next, place the following <div> tag on your web page wherever you would like the Five Star Widget to appear. These are provider specific, and can find each provider's <div> on their profile page.
- To adjust the size of the widget, you can change either the height or width property of the <div>.
- The default has height set at 180, which the previews below also have for reference.
- Please only have one of these two values set (i.e. if you change width to be **width='300'**, then make sure height is **height=''** or removed from the <div> altogether) as the other will automatically scale appropriately.

Urology Center

```
<div class='sehealthcare-five-star' provider-id='4e2216ac2cfc9a7132370a652643b8f1'
height='180' width=''></div>
```

(ONLY FOR ORGANIZATIONS WITH MULTIPLE PRACTICES)

If your organization has multiple practices, you will need to repeat this process for each of them. Every physician has a unique id code tied to the practices they provide care at and their Five Star widget will be different for each.

Should you need any assistance along the way, please contact us at: **support@sehqc.com**
