

THE PHYSICIAN EMPOWERMENT[®] SUITE

Improve financial performance, enhance your practice's reputation, and grow your business

SE Healthcare's Physician Empowerment[®] Suite, a set of specialty-specific data analytics and survey tools, contains solutions that empower your practice to be more successful in an increasingly competitive market.

The suite is comprised of three healthcare data analytics solutions: the Patient Experience Platform, the Clinical Safety Platform, and the Reimbursement Effectiveness[™] Platform. Combined, these three powerful tools can help you take control of your practice's future.

The impact on your practice

- Get the reimbursement you deserve from payers
- Make your practice more attractive to networks
- Improve your reputation and transparency to convert website visitors into new patients
- Retain current patients by uncovering issues and creating a better patient experience
- Enhance workplace culture for physicians
- Enhance patient engagement and satisfaction
- Address critical issues like physician burnout, quality, and safety

Powerful insights and functions

- Unique reimbursement insights typically only available to payers
- High-quality data to help you build a value story to more effectively negotiate with payers
- Enhanced features like a Five-Star Reputation Tool, Patient Loyalty Index, Key Driver Matrix, and Performance Improvement Tools
- Insights into hidden problem areas to improve patient experience, patient engagement, quality, safety, and overall practice performance
- Hundreds of educational materials, videos, documents, and other content aimed at improving performance

The Physician Empowerment™ Suite

The three components of the Physician Empowerment® Suite:

The **REIMBURSEMENT EFFECTIVENESS™** Platform

Simply put, the Reimbursement Effectiveness™ Platform is designed to help your practice get the reimbursement dollars you deserve from payers and make your practice more attractive to networks. The tool allows you to build a value story, uncover areas where you are underpaid, enhance your negotiation strategy, and improve your practice performance.

The **PATIENT EXPERIENCE** Platform

The platform is a specialty-specific survey tool designed to give providers real-time feedback about their patients' opinions and experiences. The platform includes the Five-Star Reputation Tool to allow your practice to provide transparency about your providers' quality and convert website visitors into patients.

The **CLINICAL SAFETY** Platform

The Clinical Safety Platform is a specialty-specific data analytics solution that helps uncover clinical best practice insights. The insights delivered to you through the Clinical Safety Platform can help you improve patient satisfaction, enhance physician work satisfaction and culture, reduce risk, and improve reimbursement negotiations.

EMPOWERING Healthcare Providers

SE Healthcare has been at the forefront of providing solutions to help practices enhance their performance for over 10 years. Our team of nationally and internationally renowned physicians, legal and risk management thought leaders, healthcare consultants, and experienced business professionals is passionate about empowering our clients through powerful data analytics and survey tools that help improve financial performance, enhance best practices, build a better reputation, and thrive in an increasingly challenging healthcare environment.
